FRAKTEL

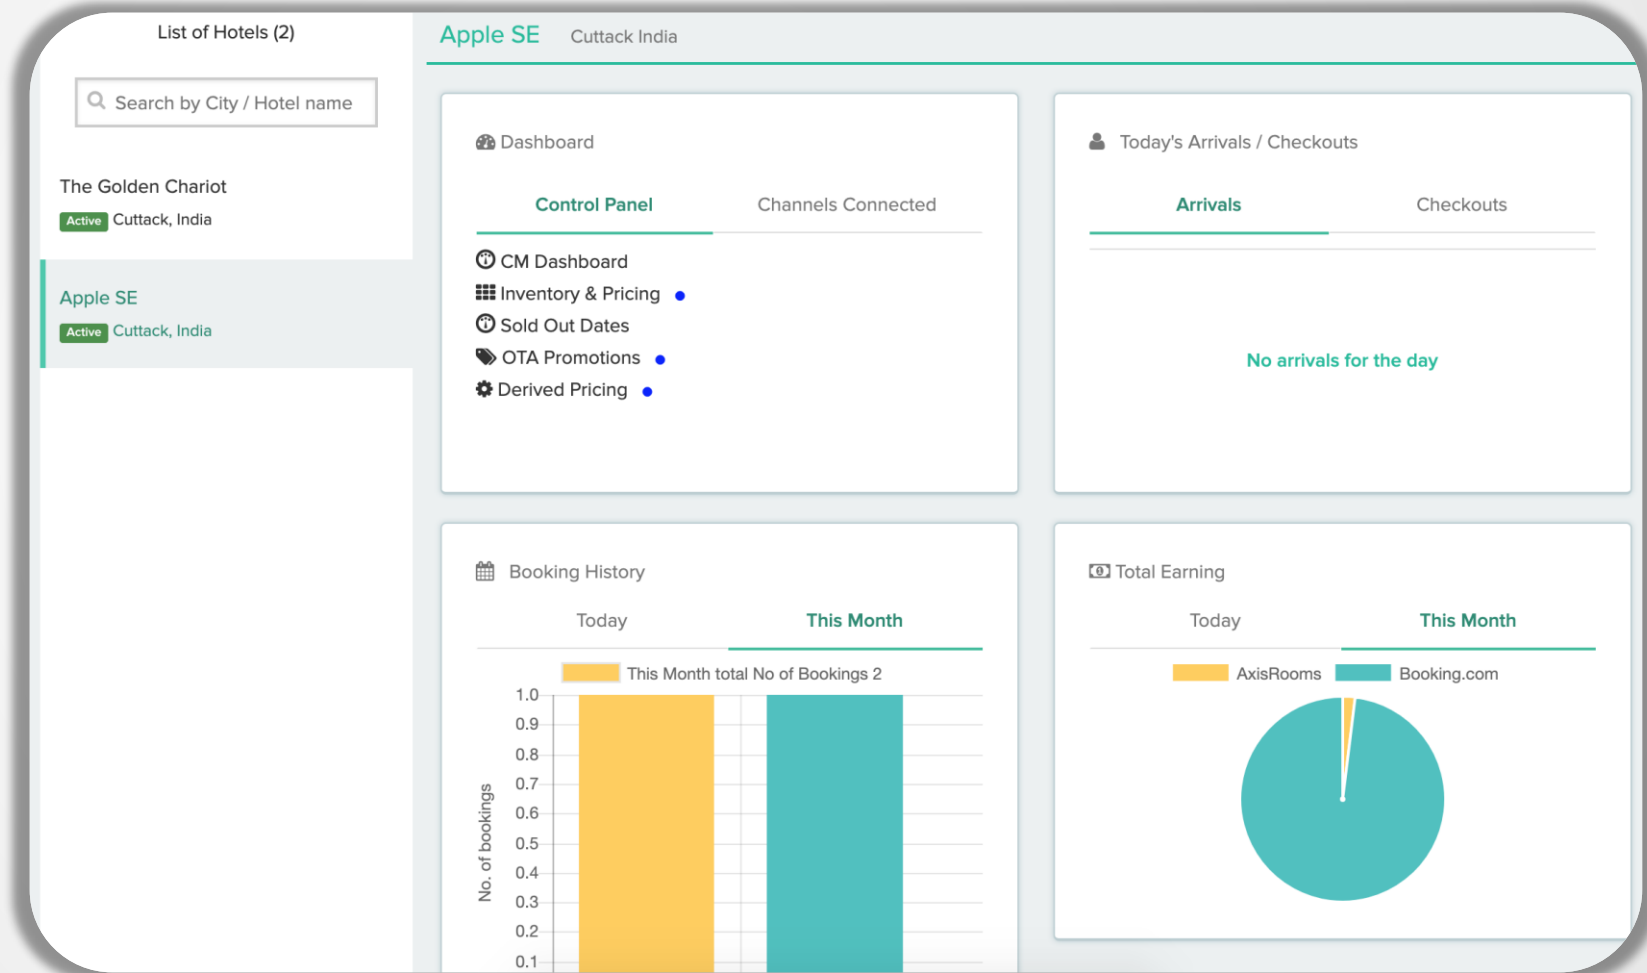

POWERED BY JINISYS

Features Overview

Dashboard

Hotel Snapshot in one place

View a quick summary of check-in's, new bookings and earnings for the day or month.

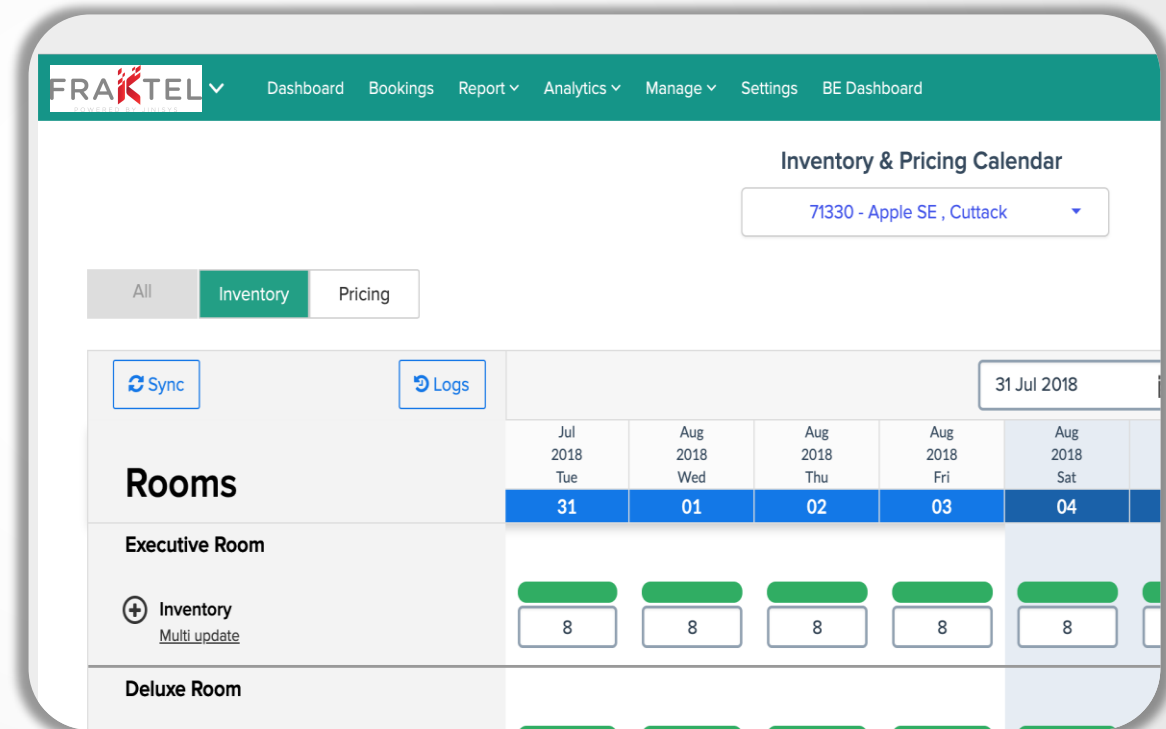

Inventory & Price

Price & Inventory

Our dashboard gives you a panoramic view of your entire inventory. Say goodbye to double booking. Update the price once and sync it with all connected OTAs

User friendly

Our dashboard is easy to learn and easy to use. Check information with a single login

Derived Pricing (BAR)

Alleviate yourself from pricing nightmare using BAR(Best Available Rate). Just update one price and let the system update the price for all your room & rate plan combinations

FRATEL Dashboard Bookings Report Analytics Manage Settings BE Dashboard

Executive Room	31	01	02	03

Update BAR

Pricing (Sell Rate) (INR) 2010 2010 2010 2010

Create / Update Derived Pricing

1 Room Types 2 Rateplans 3 Room Occupancies 4 Extras 5 Preview & Save

Base CP Base does not have a modifier

2 EP New Per Room + - 100 INR %

3 MAP Per Room + - 120 INR %

4 AP new Per Room + - 20 INR %

With BAR pricing, hoteliers can define modifiers for room types, rate plans and occupancies. Hoteliers have to update one combination and the system handles the rest.

Create Promotions

Create a special deal or a discount in the form of promotions in our channel manager to get most out of your hotel

You can now create promotions inside the Channel Manager and sync it with the supported OTAs.

Capping Allocation

This feature allows you to cap certain number of inventories for a certain OTA

It helps you to showcase your inventory on particular OTA as per your preference

The screenshot displays the FRAKTEL web interface for the 'OTA Capping Allocation Form'. The top navigation bar includes 'FRAKTEL' and menu items: 'Dashboard', 'Bookings', 'Report', 'Analytics', 'Manage', 'Settings', and 'BE Dash'. Below this, a secondary menu shows 'Inventory & Prices', 'Inventory Config', 'Price Calendar', and 'Load & Copy Price Calendar'. The main content area features three unchecked checkboxes for 'Expedia Auto Confirm', 'Golbibo Auto Confirm', and 'Hostel Bookers Auto Confirm', along with a '+ Show Blocked' button. The 'OTA Capping Allocation Form' itself contains the following fields and controls:

- Channel:** A dropdown menu with the placeholder text '--Select Channel--'.
- Room:** A dropdown menu with the placeholder text '--Select Room--'.
- Start Date:** A text input field with the placeholder 'dd/mm/yyyy' and a calendar icon.
- End Date:** A text input field with the placeholder 'dd/mm/yyyy' and a calendar icon.
- Days Of Week:** A section with 'Select All' and 'Clear All' buttons, followed by checkboxes for 'Mon', 'Tue', 'Wed', 'Thu', 'Fri', 'Sat', and 'Sun'.
- Capping Value:** A text input field.

At the bottom of the form are two buttons: a red 'Cancel' button and a blue 'Update' button.

Block Channel (OTA)

This feature allows you to block a certain OTA

It helps to rectify disparity and helps to avoid any business losses

The screenshot displays a 'Block Channel Update Form' modal window overlaid on a PMS interface. The form contains the following fields and options:

- Channel:** Booking.com
- Room:** Executive Room
- Start Date:** 12/04/2018
- End Date:** 21/04/2018
- Days Of Week:** Select All (checked), Clear All (unavailable). Individual days: Mon, Tue, Wed, Thu, Fri, Sat, Sun (all checked).
- Comment:** blocking booking.com

At the bottom of the modal are 'Close' and 'Save changes' buttons. The background interface shows a calendar for April 2018 and a list of rooms with their respective status (e.g., 'Not Allocated').

Settings

Connect new OTAs

The settings page allows to connect to new OTA channels and manage room & rates

Documentation

Frequently updated knowledgebase

Serves as a guide to using the product and its features

The screenshot shows a knowledgebase interface with a search bar at the top. Below the search bar are three article collections, each with an icon, a title, and a list of authors.

- Channel Manager**: 18 articles in this collection. Written by Jay, Tejaswini Meduri, and Sandhya Reddy and 2 others.
- Booking Engine**: 2 articles in this collection. Written by Archana and Durga Varapasana Kolapati.
- Airbnb (VR)**: 5 articles in this collection. Written by Deepak Dubey.

Other important features

Integrate your PMS

Have a PMS? We work great together with top PMS providers. Your PMS and channel manager will always be in sync

Best Parity Policy

We guarantee same pricing and ratings for all travel agencies with complete integration

Real Time Updates

All updates happen simultaneously. Our product is integrated with all channels. Even on Airbnb. We are the only partner integrated with Airbnb.

Almost All Currencies

With well over 29 currencies, you never have to lose a booking from any corner of the globe

Other important features

Customize all the way

Block/unblock channels, set sold out dates, and so much more. We can customize the way you want

Over 50 OTA Integrations

We got the best OTAs with the best APIs to deliver you the most reliable platform.

Analyse

Know the what, where and when of all your bookings. Understand trends and optimize selling channels

Log every move

The CM logs every change made by the user so you can audit what happened and when.
